

CAT 5 DRIVER SERIES

Long Runs of Audio and Video Made Easy

PATENT PENDING

Keep it simple with our CAT-5 Driver Series A/V distribution plates that allow you to run audio and video signals over affordable Cat 5 wiring for distances of up to 500 feet! By utilizing the latest in low noise amplification, signals stay crystal clear with virtually no degradation. Simply mount the transmitter plate by your gear and the receiver plate by the television.

Available in a variety of configurations and plate colors, the CAT 5 Driver plates are perfect for any installation.
