

INSTALLATION MANUAL

IS-6 SOURCE SELECTOR

The IS-6 six input stereo source selector connects to the AUXILIARY (line level) input of your preamp or receiver and expands it to handle six line level sources instead of just one. It provides convenient selection of your new audio sources by rotating a switch instead of having to handle a number of audio cables. Sources such as CD, DAT, DCC, Tuners and the Audio part of a Laser Disc can be conveniently selected at a single location.

Phono level sources can also be selected with the IS-6, the enclosure is well shielded and grounded. However, it is not good practice to mix phono and line level sources in the same switchbox, crosstalk might become a problem.

A suggested hookup diagram is shown on the back page. The sources shown are only suggestions, you will probably own other equipment. Any line level audio source will work well into the IS-6.

The rear panel RCA type phono jacks are numbered 1-6 and are selected by setting the front panel rotary switch indicator to the corresponding number. The OUT to AUX., IN jacks connect to your amplifier AUXILIARY or LINE IN inputs. The sources selected by the IS-6 become available when the amplifier input selector switch is operated to LINE or AUX.

All IS-6 connectors are RCA type phono jacks. Readily available shielded phono cables with RCA plugs should be used.

WARRANTY

Your AUDIOPLEX TECHNOLOGY® IS-6 is covered by a LIFETIME warranty against any defects in workmanship and materials. Any defects will be remedied without charge for labor or parts.

Damage incurred by shipping or accident is not considered to be a defect, and not covered by this warranty. AUDIOPLEX TECHNOLOGY® is not responsible for defective operation caused by abuse or by modification or service by any unauthorized person or agency.

The unit must be properly installed and operated according to instructions for the warranty to apply. Any necessary servicing must be done by AUDIOPLEX TECHNOLOGY®. The products must be returned expenses prepaid, with written authorization from the company. The product must be shipped with the proof of purchase and in the original carton and packing material to avoid damage.

This warranty gives you specific legal rights. You may have other rights which vary from state to state.
