

INSTALLATION MANUAL

AUDIOPLEX[®] TECHNOLOGY

LLP-1

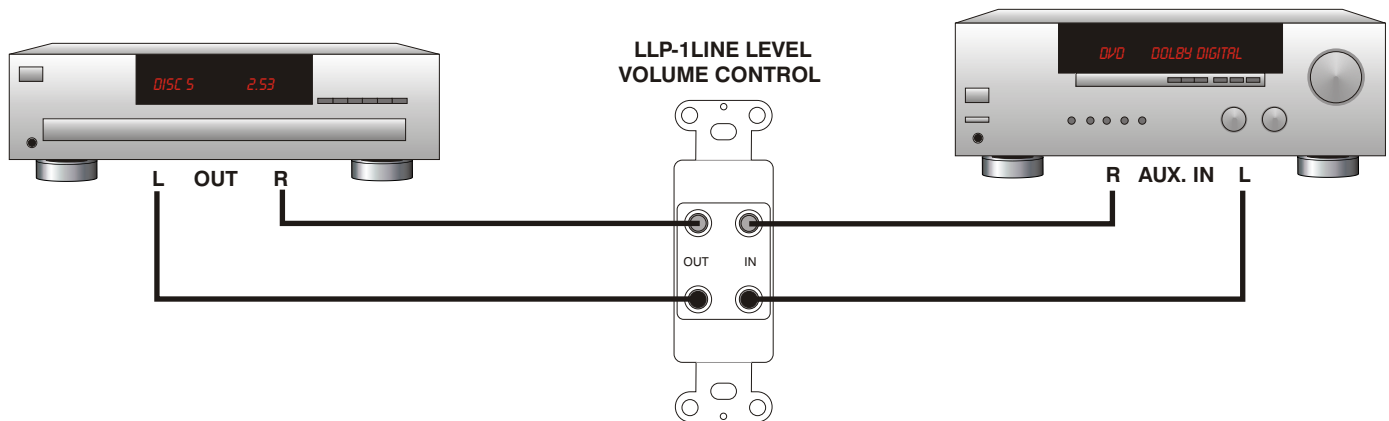

LINE LEVEL VOLUME CONTROL

INSTALLATION:

The LLP-1 is a single source input unit with a line level volume control which connects to the AUXILIARY (line level) input of your preamp or receiver. Sources such as CD, DAT, DCC, Tuners or the audio part of a laser disc can be conveniently used as the single input source.

A suggested hookup diagram is shown below. The source is only a suggestion, you can connect a variety of other equipment. Any line level source will work well with the LLP-1.

All LLP-1 connectors are RCA type phono jacks. Readily available shielded phono cables with RCA plugs should be used.

WARRANTY

Your AUDIOPLEX TECHNOLOGY[®] LLP-1 is covered by a Lifetime warranty against defects in workmanship and materials. Any defects will be remedied without charge for labor or parts.

Damage incurred by shipping or accident is not considered to be a defect, and not covered by this warranty. AUDIOPLEX TECHNOLOGY[®] is not responsible for defective operation caused by abuse or by modification or service by an unauthorized person or agency.

The unit must be properly installed and operated according to instructions for the warranty to apply. Any necessary servicing must be done by AUDIOPLEX TECHNOLOGY[®]. The products must be returned expences prepaid, with written authorization from the company. The unit must be shipped with the proof of purchase and in the original carton and packing material to avoid damage.

This warranty gives you specific legal rights. You may have other rights which vary from state to state.
