RACKIT IR

Rack Mounted Termination point for IR repeating systems

SPECIFICATIONS

Connectors: Screw-type
Emitter outputs: 1/8" mini-jack, five on front, one on rear
Power supply: +12vdc power supply (included)
Dimensions: 1.75"H x 19"W x 1.25"D

The RackIt IR provides a convenient rack mounted connecting point for a remote relay system, eliminating hard-wiring. Each room has its own screw-down connector for the IRTarget, each emitter and power supply has its own plug-in jack. The enclosed IRDirect emitters work in conjunction with the IRPrisms (see enclosed insert), and allow full rotation to direct the IR signal towards the IRPrism and the intended component. IRBugs and IRfloods can also be used and are sold separately. Follow the wiring diagram below for basic set up.

The RackIt IR includes a jack for an optional 12vdc wall adapter. By plugging the adapter into your receiver's switched AC outlet, you will provide SYS-TAT power whenever the receiver is turned on.

WARRANTY

Your AUDIOPLEX TECHNOLOGY[®] RackIt IR is covered by a LIFETIME WARRANTY against any defects in workmanship and materials. Any defects will be remedied without charge for labor or parts.

Damage incurred by shipping or accident is not considered to be a defect, and not covered by this warranty. AUDIOPLEX TECHNOLOGY[®] is not responsible for defective operation caused by abuse or by modification or service by any unauthorized person or agency.

The unit must be properly installed and operated according to instructions for the warranty to apply. Any necessary servicing must be done by AUDIOPLEX TECHNOLOGY[®]. The product must be returned expenses prepaid, with written authorization from the company. The product must be shipped with the proof of purchase and in the original carton and packing material to avoid damage.

This warranty gives you specific legal rights. You may have other rights which vary from state to state.
