**AUDIOPLEX TECHNOLOGY® INTRODUCES
IRB-4 INFRARED CONNECTING BLOCK**

MELVIN VILLAGE, NEW HAMPSHIRE - Audioplex Technology introduces the latest in it's innovative line of infrared products, the IRB-4 Single Zone IR Connecting Block.

The IRB-4 provides a convenient connecting point for a remote relay infrared system, eliminating hard-wiring. Multiple IRTargets can be connected in parallel (up to 12) to the IRB-4 screw-down connector. The IRB-4 offers four emitter outputs (1/8" mini-jacks) as well as one extra emitter jack that can be used with the Audioplex IRS-1 to accept up to 4 more hard wired emitters. The IRB-4 comes complete with power supply and is offered at a competitive price point. For trouble-free single zone infrared systems, the Audioplex IRB-4 can't be beat!

Audioplex Technology's main office and factory is located in Melvin Village, NH. Audioplex manufactures a full line of Infrared Repeating systems, as well as volume controls, swtichers, amplifiers and impedance matching products. All products come with a lifetime warranty against defects in workmanship and materials. Custom component design is also available. For more information or to receive a complete product catalog, please call 1-800-257-2077. Information is also available on the World Wide Web at www.audioplex.com.
